From: The President

Subject: HR 2138

STAT
STAT

With the President's signing of H. R. 2138, I want to acknowledge with thanks the special efforts of [redacted] and his staff and John Warner and [redacted] in the achievement of this special provision in the naturalization law. While their work and perhaps the work of others not known to me must remain anonymous to the grateful exiles affected by the bill, it is well known to us in the management. The astuteness of their action, advice and guidance is evident and their cooperation over a period of several years is appreciated.
